## LET'S MAKE OUR OWN TRICK!

For some skaters a big part of skateboarding is being creative, doing what you like to do, and developing your own personal style. It doesn't matter what how good your skills are- being creative can be done at every level!

For this Canvas we want all of our skaters to think about some of the skills they have and then put a personal or unique twist on them. Some of the ways that you can do this is by combining different skills, moving your body or your skateboard in a way that is different from how other people move when they skate, incorporating noises or other actions into your trick, and much more- the options are endless!

## **FINALLY, WE WANT TO SHARE OUR SIGNATURE TRICK/SKILL WITH THE WORLD!**

There are a few ways we can share our trick.

One way is to film a video or take a photo of us doing it.

A second way would be to describe the skill or trick to a friend using the words you wrote on the previous page. A third way would be to draw yourself performing your signature trick/skill.

Whichever options you choose make sure to let the world know that you are your own skater with your own style!
