

Skate Like a Girl Spectators Policy

Thank you for your interest in attending Skate Like a Girl Sessions to support a special skater in your life. Here are a few ground rules we have for spectators at our programs:

- Many of the skateparks and spaces we operate in **do not allow for spectators**, due to building restrictions and/or lack of room. To be completely sure there is space for you to spectate, please contact your local chapter director prior to attending a program.
- Many of our programs are **exclusive spaces for women and/or trans skaters, or queer and/or trans skaters**, and therefore spectators that do not share any of these same identities will be allowed to drop off skaters and check out the space, but will not be allowed to stay and watch for the duration of the class.
 - For any requests for an exception to this policy, please contact the Chapter Director or Program Manager on site. For example, a cisgender dad who wants to stay during a program to supervise an underage participant.
- We highly recommend that spectators come **during breaks between classes and/or during showcase** to catch the action or film a clip of their skater.
- We ask that all spectators **stay outside of the skate park area until the class has ended**. No spectator coaching or support will be allowed without prior approval from the local chapter director.
- **Unattended youth spectators are not allowed** without prior approval from the local chapter director.
- Any inquiries around spectating that come up day of, please connect with our onsite Program Manager.

***NOTE:** If you have any special requests or follow up questions, please contact your local chapter and we'll do our best to accommodate. If it is within 48 hours of the program start or a weekend program, please plan to connect onsite with our Program Manager.*
